[The language below will be added to the existing provisions regarding coverage during periods of leave and following termination of employment.]

Reemployment in General *Note: these new break in service rules are required by the ACA, in place of any less generous current provisions for resuming coverage after termination of employment. The Standard, Custom and Monthly Checklists include a choice of provisions. The language below adopts the 13-week rule.*

An Employee who was a participant in the Plan on the date of termination may resume participation in the Plan on #16a: the date of rehire if the Employee #15b: has not had a Break-in-Service, provided that the Stability Period on the date of reemployment is the same as the Stability Period in effect on the date of employment termination. If reemployment begins during a new Stability Period, participation in the Plan

will begin **#16a: on the date of rehire** if, based on the applicable Measurement Period, the Employee has Full-Time status on the date of reemployment.

In the case of a reemployed Employee eligible to participate under the conditions stated above, but who had not satisfied the Waiting Period as of the termination date, the Waiting Period will be reduced by the period of prior employment and the period between the date of termination and date of rehire..

In cases of reemployment **#15b:** following a Break-in-Service, eligibility to participate will be based upon the Employee's status on the date of rehire in accordance with the provisions of Section (A) of this Article (relating to initial eligibility for new hires).
